

Men Of Metal

HOT BRAZEN STUDS

One part wishful thinking and one part parody

Although these are not real interviews, they are based on wording from a recent "Hottest Chicks in Metal" magazine.

I'm the first to admit that women do our share of mental masturbation to the men on stage. But do you ever see a male musician bent over in assless chaps where it ISN'T a joke? Keep your Halford references to yourself.

"Motorhead's album Orgasmatron came out in 1986 and between Lemmy's penetrating eyes, luscious lips, and lithe body, *not to mention* his tough, brassy vocals, skill wielding a bass guitar and penchant for tight leather pants, there is a lot to orgasm over." ¹

"Strapping Young Lad's Devin Townsend doesn't put much effort into being handsome. Most of the time he wears a band t-shirt, jeans, and converse sneakers. He doesn't always shave and his hair is often messy. But we're sure you'll agree that when he cleans himself up, and as a matter of fact, even when he doesn't the boy is a stone cold stud." ²

The Beefcakes of Cattle Decapitation

Stankzine: Your new song "Joined At The Ass" is pretty naughty,³ Is it true you recorded the guitar tracks while naked? ⁴

CD: Yes we recorded the entire thing naked, except for the basslines.

We have to be naked while recording, it helps open up the energy. We have no problem exposing our naked bodies.

"No, I won't fuck you. Why not? Because your girlfriend is my sister in metal."⁶

Doro Pesch's response to a fan who asked if they could fuck.

"When I first came on the scene in 1974 my record company told me, you've got to dress differently and not look like a biker. I said no way, I will dress the way I want to and be comfortable."⁵

- 1 based on a description of Halestorm's Izzy Hale**
- 2 based on a description of Landmine Marathon's Grace Perry**
- 3 Lita Ford's new album Wicked Wonderland was described as "naughty" by the interviewer.**
- 4 Sigh's vocalist Dr. Mikannibal was asked this question and provided a similar response.**
- 5 In an interview Doro Pesch said that her record company asked her to "dress more feminine" and "not look like a biker" when she first came to the US. She said, "No way, I will look the way I like and feel comfortable."**
- 6 No, Doro did not say this. This is a modification of something Joey DeMaio of Manowar responded to a female fan. While I respect Joey for upholding the brotherhood and not just wanting to fuck, I'm wondering where the metal sisterhood is. You can find this exchange in Manowar's Hell on Earth Part IV.**
- 7 Revolver magazine puts out, you guessed it, a "Hottest Chicks in Metal" wall calendar.**
- 8 Steve Grimmert deserves respect for being an amazing vocalist. It doesn't matter what he looks like. Could a female vocalist get away with looking so much like the rest of us?**
